**DEPARTMENT OF ECONOMICS AND STATISTICS,
CHENNAI-600 006**

Preface

The Housing and Building Statistics is a significant parameter in framing policies to lay emphasis on the growth and development of Housing sector of the State and Country.

This Report presents information on the Housing & Building projects built by Private Sector in Tamil Nadu during the year 2022-23. It highlights the main aspects of housing and building such as (i) type of buildings, Category wise dwellings and (iii) Plinth Area and Floor Area of Residential and Non-Residential Buildings.

As per the guidelines / instructions issued by National Buildings Organisation, Ministry of Housing and Urban Affairs, New Delhi, the data on Housing & Buildings is collected from building permits issuing authorities of Urban Local bodies. The data is collected by the district officials of the Department of Economics and Statistics, Tamil Nadu. The data validation, generation of tables and report writing are carried out by the officials in the DES, Headquarters.

The support of all Urban Local bodies for providing timely information is highly acknowledged.

I hope this report will be useful to Government Departments, Planners, Researchers and others interested in the Housing Sector.

Suggestions and comments are invited from the users of this report for improving the contents in the forth coming publications.

HOUSING AND BUILDING CONSTRUCTION UNDER PRIVATE SECTOR IN TAMILNADU FOR THE YEAR 2022-23

Introduction:

Housing and Building Statistics is collected in view of the formulation of Housing Policy and Programmes and study of socio-economic aspects of housing sector. For providing affordable housing for all, information relating to housing and building construction activities is required and it occupies a predominant place both in terms of income and employment generation.

Scope & Coverage :

The collection and compilation of data on Housing & Buildings built by private sector in Tamil Nadu provides data on **new constructions** in Residential and Non-residential type of buildings in the State.

All housing & building construction activities in a city/town are administered by the City Municipal Corporation / Development Authorities and their rules & regulations. The data on housing & building construction by Private sector is collected every year from the building permit issuing authorities of Urban Local bodies.

The National Buildings Organisation, Ministry of Urban Affairs, New Delhi, has modified the housing schedule in a bridged form by combining the previous two schedules. Since 2007-08, the combined schedule has been used for collection of data on housing and building construction activities of public sector and private sector.

The NBO, MOHUA, New Delhi has implemented Urban Statistics for Human Resources and Assessments (USHA), a Central Sector Scheme and developed 'Building Related Information and Knowledge System (BRIKS)' software, an online Management Information System (MIS) for online submission of data on housing & building construction and related activities. In compliance with the BRIKS software under USHA Scheme, Data Entry software was

developed at the Headquarters of Department of Economics and Statistics, Tamil Nadu and the same has been communicated to all District offices for data entry.

All building projects being executed by Private sector in Class I and II towns and selected class III & IV towns are covered during the reference year. The selection of sample among Class III & IV towns are being done as per the guidelines of NBO.

The samples are selected by using the Simple Random Sampling Without Replacement method among class III & IV towns after arranging the towns in the descending order of their population in each class. As per the 2011 census the towns are classified in the following categories.

Towns	Category	Total no.of selected towns (151) for the year 2022-23
Class I	Population greater than or equal to 1 lakh	26
Class II	Population greater than or equal to 50000 and less than 1 lakh	61
Class III	Population greater than or equal to 20000 and less than 50000	22
Class IV	Population greater than or equal to 10000 and less than 20000	42

The filled in Schedules on Housing and Building Construction activities for the year ended 31.03.2023 received from all the Class I towns (26), Class II towns (61) and selected Class III (22) & Class IV (42) towns have been processed and the details presented in the tables annexed.
